

# WELCOME TO FLIP- A Fun Lucid Interactive Reading Platform!

This short tutorial will walk you through all of the features of this application.

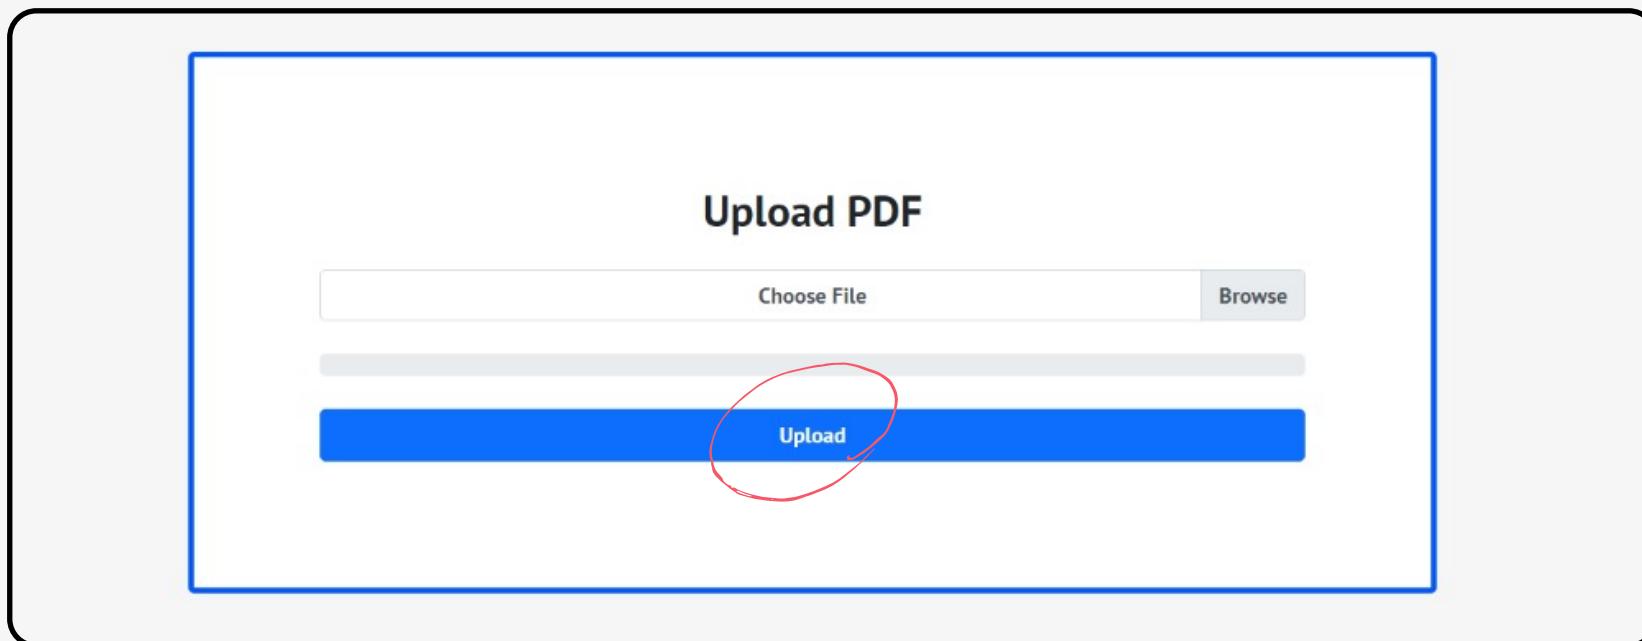

If you want to dive right in feel free to Skip this Tutorial otherwise, have a short reading!

# GETTING STARTED

After logging into the platform, the authenticated users (guests) can either open an E-Book from FLIP Library.

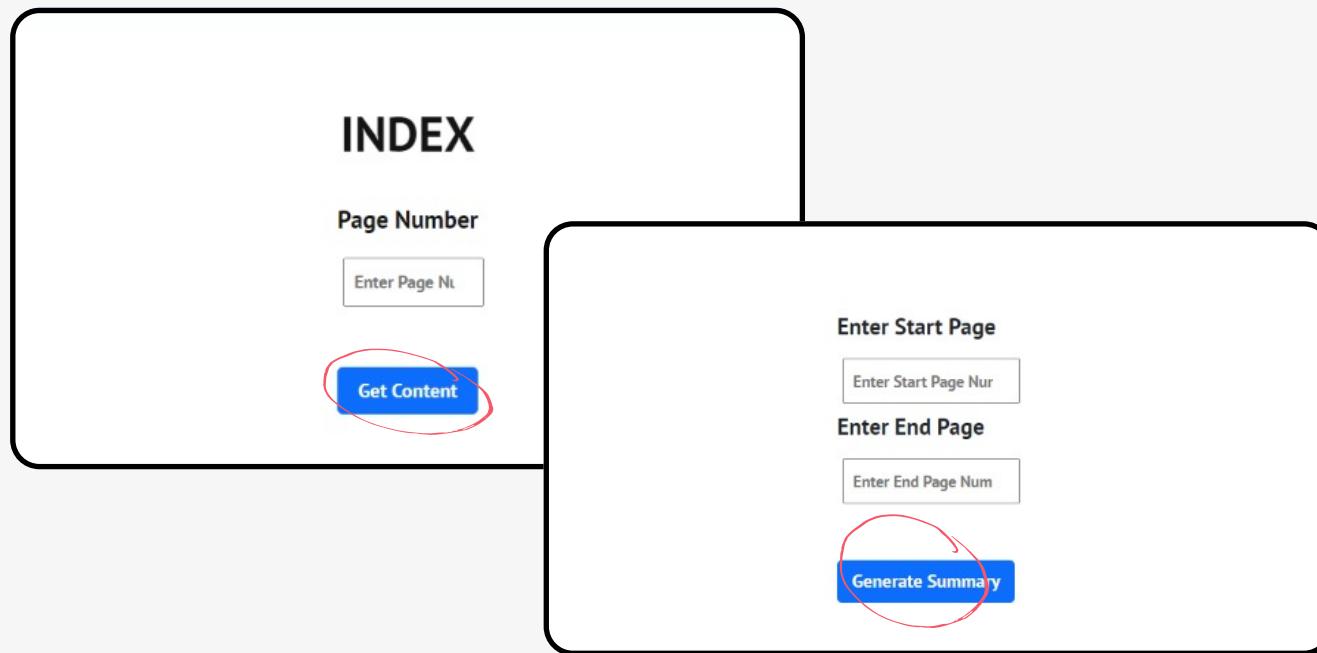

The user can also upload one of their choice by clicking on “Upload” button.

# CHAPTERWISE SUMMARY GENERATION AND SUMMARY GENERATION FOR A SERIES OF PAGES

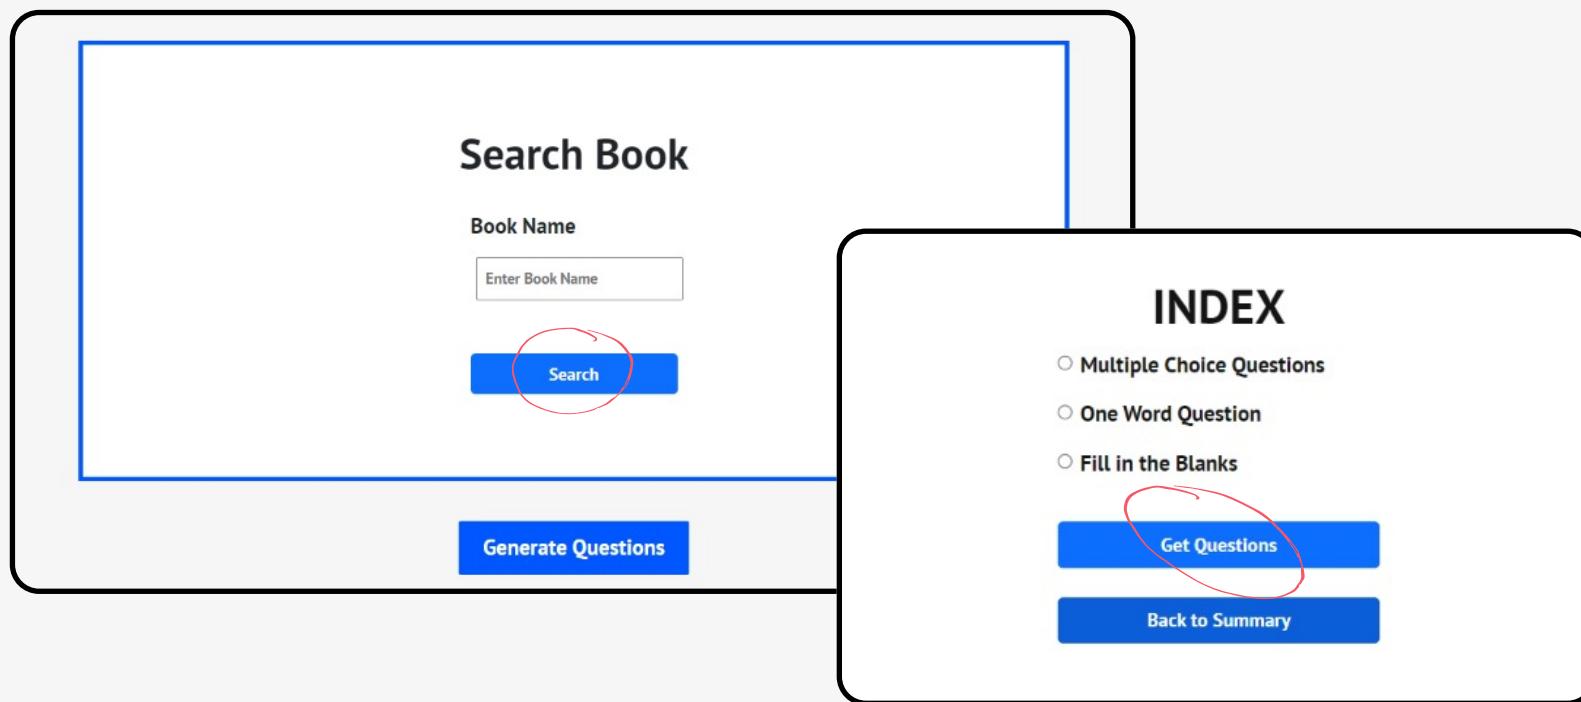

The application can be used for summarization. The content of a specific page of the E-Book can be obtained by clicking on “Get Content” Button.

For Summary generation of a series of pages, the user can input Starting and Ending Page numbers and then click on “Generate Summary” button.

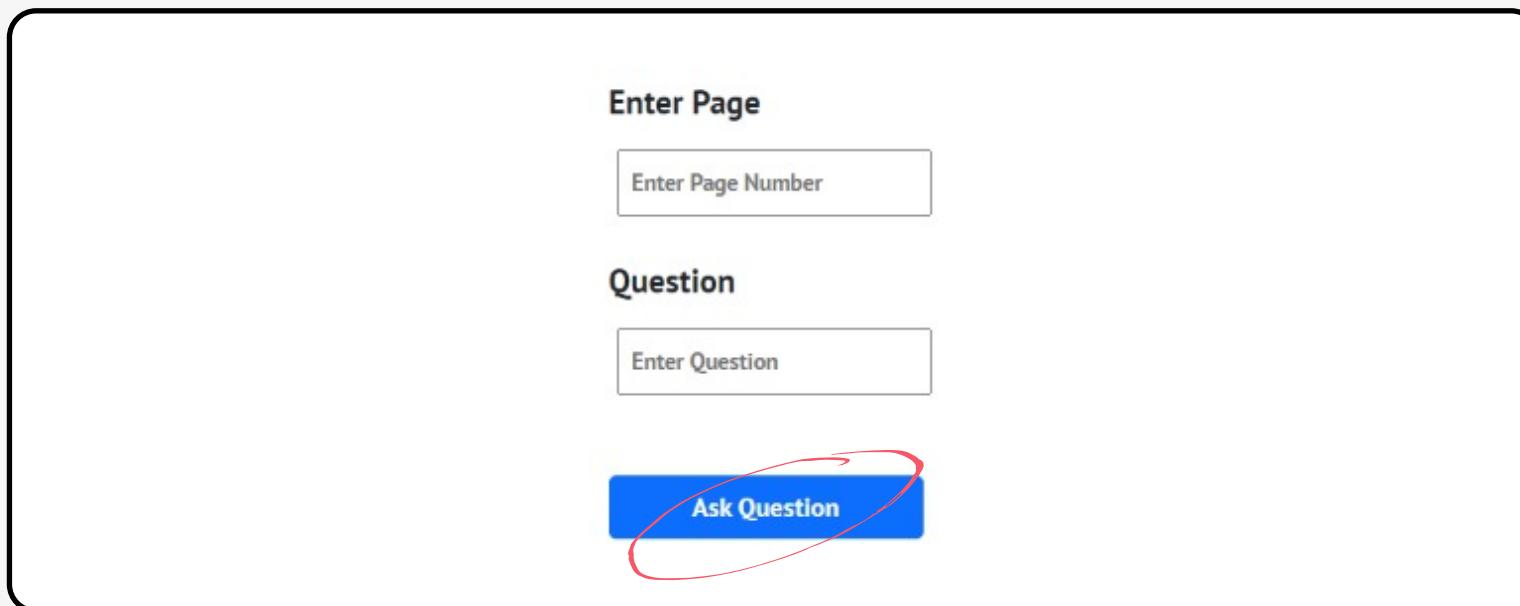

# SELF ASSESSMENT

The application can be used for Question Generation or Self Assessment. The desired E-Book can be searched and then by clicking on “search” button the question categories can be obtained. The assessment will have three categories of questions – MCQ’s, Fill in the blanks and One-word type questions. The user can access these questions by clicking on the “Get Questions” button.

# QUESTION ANSWERING

The application can be used for Question Answering. The users can get answers to their queries regarding the context of the E-Book they're reading currently by entering the Page Number they have a query on and then asking a question. Answer to the question can be obtained by clicking on "Ask Question" button.

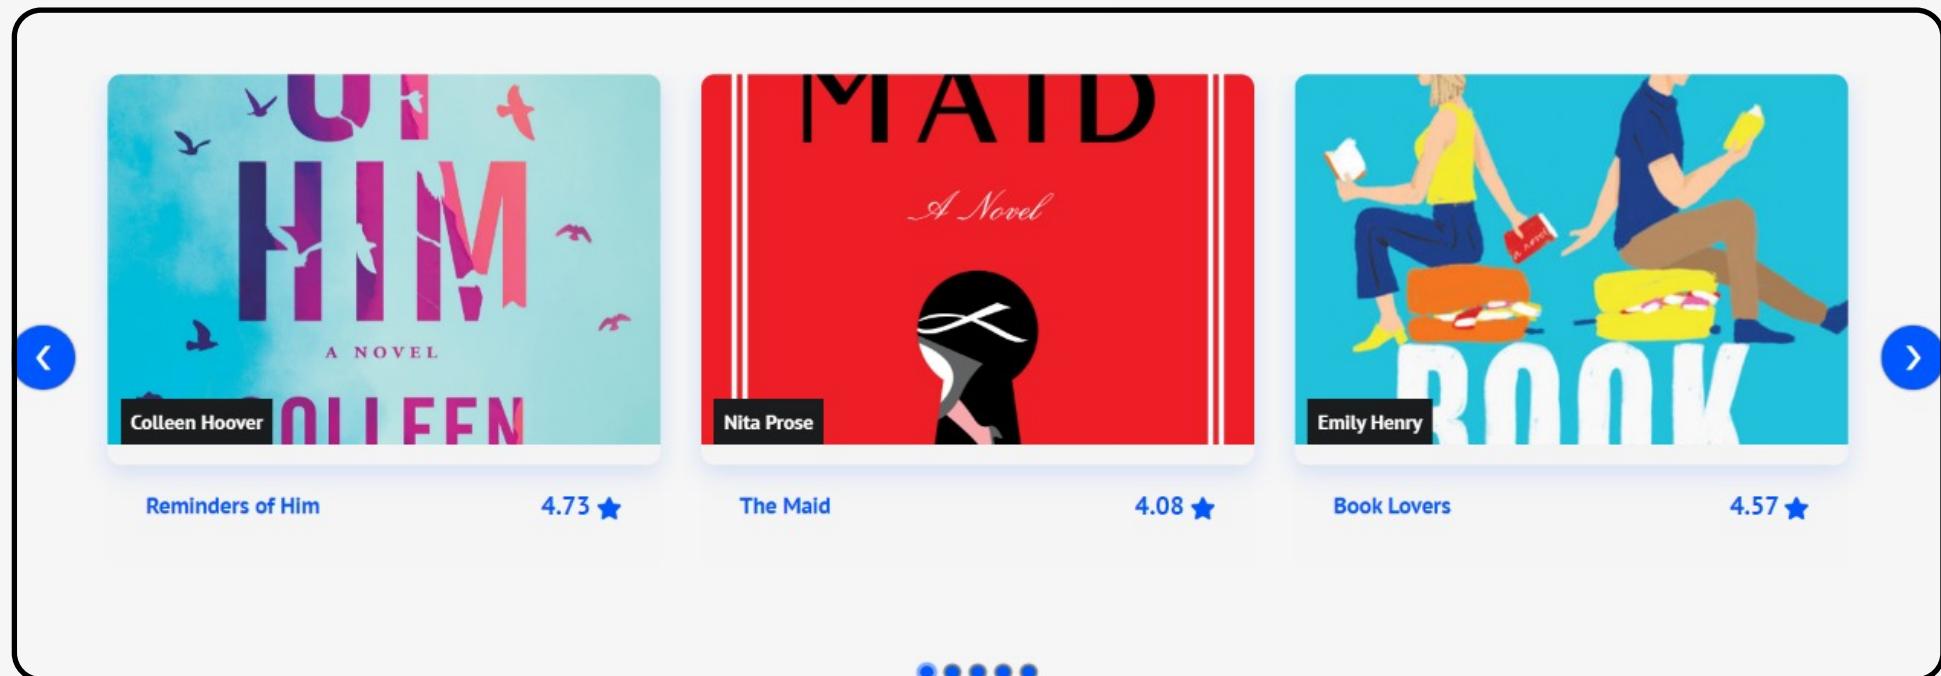

# AUTHORS DASHBOARD

There's an Author Dashboard on the home screen. Authenticated authors can log into the system using the "Log in" Button. They will be allowed to publish their E-Book (pdf), auto-generated page wise summary and a self-assessment of the E-Book to the library.

The author will be able to search for their published E-Book from the library and get a preview of the generated summary and self-assessment. Furthermore, if they wish they can modify the same.

# E-BOOK SUGGESTION

In this application user can find a bunch of different top rated E-Books suggestions. There are a few E-Book cards and the users can swipe through to have a good look !

# USER PROFILE UPDATION

User can update their passwords by clicking on the “Update Profile” Button.

The screenshot shows a user interface for updating a profile. At the top, there is a navigation bar with links for Home, About, LogOut, Update Profile (which is circled in red), and Author DashBoard. Below the navigation bar is a large blue-bordered form titled "Update Profile". The form contains three input fields: "Email" with the value "test@test.com", "Password" with the placeholder "Leave blank to keep the same", and "Password Confirmation" with the placeholder "Leave blank to keep the same". At the bottom of the form are two buttons: a large blue "Update" button and a smaller blue "Cancel" button.

# FOOTER

The web application has a footer with general links to About Us, Contact Us, Videos and Social Media accounts.
